A modern and stylish, vinyl floor finish, suitable for most interior spaces. Both flexible and versatile, Mode is quick to install, with minimal preparation, and without the need for adhesive.

The patented tongue and groove profiling ensures the tiles 'click' seamlessly together to create a floor finish which combines great aesthetics with high performance. Mode can be installed over most existing hard surface floors.

MODE

A modern and stylish, glue free, floating floor installation.

Both flexible and versatile, Mode is quick to install, with minimal preparation. The tongue and groove profiling ensures the tiles 'click' seamlessly together to create a finish which combines great aesthetics with high performance.

Mode can be installed over most existing hard surface floors. But that's not the only benefit. Mode is warm and quiet underfoot, water resistant, highly durable and easy to maintain.

Product Specification

- 5.0mm gauge / 0.55mm wear layer
- Urethane coated
- Bevelled edges

Wood products

- Rustic finish: an authentic textured wood surface enhancing the natural characteristics of variable grained wood effects: All products except White Oak, Golden Oak & American Oak.
- Wood Tick finish: a subtle wood surface effect which blends superbly with the natural grain of timber finishes: White Oak, Golden Oak and American Oak
- 178 x 1220mm (7" x 48" overall), (171.2 x 1212.6mm net design surface)
- From stock 8 planks / 1.66m² per box
- Wood planks should be installed staggered

Stone products

- Smooth finish: a ceramic looking finish ideally suited to emulate the 'softer' feel of smooth natural stones: San Marco Limestone, Honed Travertine, Noce and Silver Slate.
- Slate finish: an effective and gently undulating slate texture creating the look and feel of natural mined slate: Sienna Slate and Black Cleft Slate
- 305 x 610mm (12" x 24" overall), (298.2 x 603.0mm net design surface)
- From stock 10 tiles / 1.80m² per box
- Stone tiles MUST be installed broken bonded

For our installation guide please visit our website.

DESIGN STRIPS

Our Design Strips have been specially selected to co-ordinate with our wood, stone and slate products.

We have opted for 5mm width stripping to replicate real grout effects. Use our range of stripping with stone tiles or between wood planks for a ships decking finish to your floor. Alternatively use individual strips or combinations of colours to define your floor and create simple, but highly effective linear borders.

FLOOR CARE

VICTORIA LUXURY FLOORING

Our stunning collections of luxurious and performance led flooring are hardwearing with a urethane coating to provide added protection, improved scratch and scuff resistance as well as making caring for our flooring easier.

To help keep the installed floor looking great for longer we would recommend a standard floor care routine:

ROUTINE FLOOR CARE

- Use furniture felt pads to reduce the risk of scratching, for example table and chair legs and for heavy furniture use load bearing cups.
- Your routine maintenance will depend on the level of traffic, degree of soiling and the colour or type of floor chosen.
- All floors should be swept with a soft clean brush daily.
- Use a micro-fibre mop to clean your floor weekly.
- Use a neutral floor cleaner/detergent suitable for use with LVT (refer to manufacturer's instructions) to clean your floor as part of your routine floor care.
- Floor cleaning products may contain abrasives or solvents which can be harmful to your floor.
- Do not use household detergents as these may leave a sticky or slippery residue.
- Avoid using aerosol sprays and other silicone based products as overspray can make the floor slippery.
- Spillages, especially grease, red wine etc. should be wiped up immediately to avoid any potential slip hazard and staining. Clean the area with a neutral floor cleaner/detergent suitable for use with LVT (refer to manufacturer's instructions).
- Unfortunately some scuff marks may be harder to remove. If this occurs gently rub the area using a wet, non - scratch scouring pad and clean the area with a neutral floor cleaner/detergent suitable for use with LVT (refer to manufacturer's instructions).
- Reduce the risk of scratching by using suitable entrance matting to ensure excess grit, dirt and other debris is not walked onto the floor.
- Finishing touches like rugs, mats and runners should be used in conjunction with anti-slip webbing, suitable for use with LVT flooring (refer to the manufacturer).

Signature Moleanos Blue

Warmth & comfort **you can** feel
 Softer underfoot & luxury **you can** experience
 Resilience & durability **you can** live with.

But it's what you don't see that makes **our carpets**
 and **your investment** stand out from **the crowd**.

Whilst every effort is made to represent our products accurately throughout our brochure, due to the limitations of the printing process, colours may not be strictly accurate. We recommend actual samples are viewed prior to making your final selection. Samples are cut from larger tiles and batches. They are intended to provide a general indication of the design, tone and shade. Aesthetics will vary slightly from batch to batch. It is not possible that the samples will fully match the material supplied.
